

When automatic perfection looks like “made with love”.

With the Schaerer Coffee Soul 2-step, you take milk frothing into your own hands – for simultaneous preparation, maximum flexibility, and perfect results.

The Soul 10 and 12 can be configured as a 2-step machine with high efficiency. The milk is frothed separately by hand while the espresso brews. This makes preparation much faster and enables more flexibility when it comes to vegan milk alternatives. Since no milk system or cooling unit is required, maintenance and cleaning costs are reduced, which makes operation even smoother.

The Soul 2-step configuration helps you add value in many ways:

TIME SAVING

Simultaneous frothing during the coffee brewing process

MORE VARIETY

Enables great flexibility in terms of vegan milk alternatives

BARISTA FLAIR

Easy operation for any staff member while maintaining the "barista feeling"

SMALL FOOTPRINT

Fewer accessories are required on the counter

Three powerful steam wand variants to choose from:

POWERSTEAM

Manual milk heating and foaming

AUTOSTEAM

Fully automatic milk heating and manual milk foaming (temperature can be programmed)

SUPERSTEAM

Fully automatic milk heating and foaming (temperature can be programmed and foam consistency can be memorised)

Technical specifications of the Soul 2-step configuration:

PERFORMANCE	Recommended for an average daily requirement of	up to 250 cups
OPERATION	10.4" – or 12.1" TouchIT user interface screen	
	Graphical User Interface (GUI)	staff-mode (operated only)
	Number of programmable recipes for steam wands	8
DIMENSIONS	Width	330 mm
	Depth	576 mm
	Height	730 mm
	Weight (net) approx.	55 kg
